SUMMARY

Software engineering student (AI & Data Science) with hands-on experience building data-driven systems and AI-powered automation across consulting, business intelligence, and product environments. Track record of translating stakeholder requirements into measurable operational improvements — from a 50% reduction in manual lead processing to a 98%+ accuracy voice model. SDAIA hackathon winner, IEEE Xtreme top 10% global finisher, and UC Berkeley SCET alumnus.

EDUCATION

B.S. in software engineering (AI & DS), *Prince Sultan University* 08/2022 – 01/2027 | Riyadh, Saudi Arabia
GPA: 3.87/4

EXPERIENCE

Aljdwa Consulting, *Business Analyst Intern* 06/2026 – 07/2026 | Riyadh, Saudi Arabia
- Delivered market and technical feasibility studies across real estate, F&B, and manufacturing sectors in Khobar and Madinah, informing go/no-go decisions on 3 projects
- Produced statistical insights from government education and healthcare data, shaping investment recommendations presented to 3 executive stakeholders

Ajras, *Software Engineering Intern* 05/2026 – 06/2026 | Riyadh, Saudi Arabia
- Built an AI chatbot on AWS Bedrock with S3 and Guardrails, automating inspection and handover workflows and cutting manual processing time by 30%
- Designed a knowledge base and email escalation pipeline, reducing unresolved query backlog by 20% through cross-functional collaboration with support teams

LivedIn, *Business Intelligence Intern* 01/2026 – 03/2026 | Riyadh, Saudi Arabia
- Cut manual lead qualification time by 50% by architecting an AI-powered lead routing pipeline, enabling faster data-driven decision-making for the sales team
- Standardized business process documentation for 4 stakeholders, improving handoff accuracy across sales operations

Robotics & Internet-of-Things Lab, *AI Researcher* 09/2025 – 11/2025 | Riyadh, Saudi Arabia
- Achieved 98%+ accuracy identifying 335+ Quran reciters by training a voice recognition model on a self-built Arabic NLP dataset spanning 58 cities and 19 countries
- Outperformed classical SVM by 2 points (85% vs. 83%) by engineering a quantum ML pipeline for traffic classification, in collaboration with 3 researchers

Apple Developer & Tuwaiq Academy, *iOS Developer* 07/2025 – 08/2025 | Riyadh, Saudi Arabia
- Trained ML speech models on 28,000+ recordings using Core ML and Create ML, powering an iOS app that helped 30 users with stutters track fluency improvement

AWARDS & CERTIFICATIONS

Global Entrepreneurship Bootcamp, *Prince Sultan University & UC Berkeley SCET* 08/2026
- Selected from a competitive international applicant pool for an in-person entrepreneurship program with UC Berkeley's Sutardja Center for Entrepreneurship and Technology (SCET), collaborating within a culturally diverse, cross-national team
- Covered idea generation, market research, financial analysis, prototyping, and pitching

Product Manager Nanodegree, *Udacity* 07/2026
Completed end-to-end product management program covering product strategy, UX research, prototyping, and go-to-market execution

Ranked 22nd in Saudi Arabia, *IEEE Xtreme 18.0 Programming Competition* 03/2025
Placed in the Top 10% globally out of 8,700+ teams in a grueling 24-hour competitive programming marathon

Enjaz Hackathon Winner, *SDAIA (Saudi Data & AI Authority)* 02/2025
C.A.L.I.X, an AI-driven healthcare ecosystem designed to enhance patient safety and accessibility in Saudi Arabia, selected as one of the top 10 winning projects (SAR 150K) from a competitive pool of 90+ high-potential AI startups and innovations

LEADERSHIP AND VOLUNTEERING

President of Software Engineering Club, *Prince Sultan University* 10/2025 – 04/2026 | Riyadh, Saudi Arabia
- Led 90+ members across 5 teams, running 5+ workshops and events that drew 50+ cumulative attendees
- Built partnerships with industry professionals to expand career development opportunities

SKILLS

Project & Data Skills
Stakeholder Management, Cross-Functional Collaboration, Data-Driven Decision Making, Requirements Gathering, Feasibility Analysis, Agile/Scrum, Risk Mitigation, KPI Definition & Tracking

Tools
Excel, PowerPoint, Word, Figma, Git/GitHub

AI & Data Science
Machine Learning, NLP, LLMs, Data Analysis

Programming
Python, SQL, JavaScript, Java, Swift, Dart

LANGUAGES

Arabic
Native

English
Fluent
