Ask for help finding apples
Talk to a shop assistant asking where to find apples in the supermarket

Target Users

Adults who struggle with stuttering need daily, practical tools to gain confidence in real conversations.

What’s makes Taleeq unique?

1

Personalized Assessment

Measures blocking, repetition, and prolongation

2

Daily Training

Structured exercises every day

3

Progress Tracking

Shows improvement overall and by stuttering type.

4

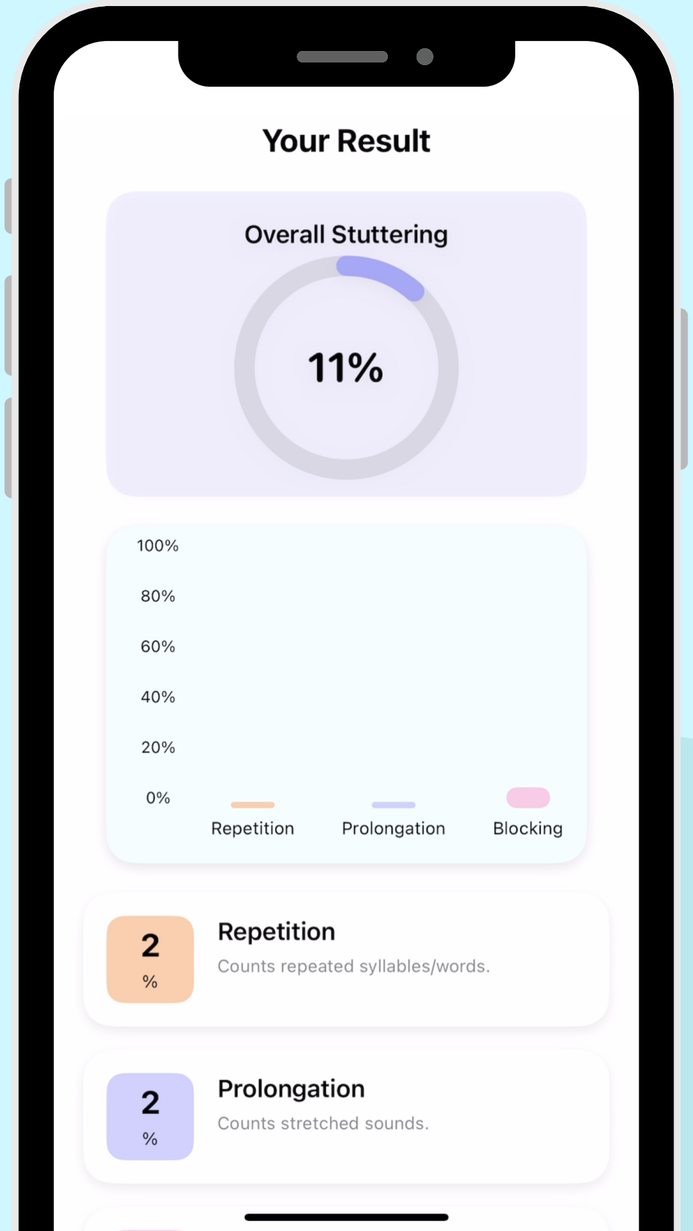

Variety of Exercises

Reading tasks, scenario simulations, timed challenges, and open questions.

AI-Powered Model

Our AI, trained on 28,000+ real speech recordings from the 28k dataset, uses two Create ML models:

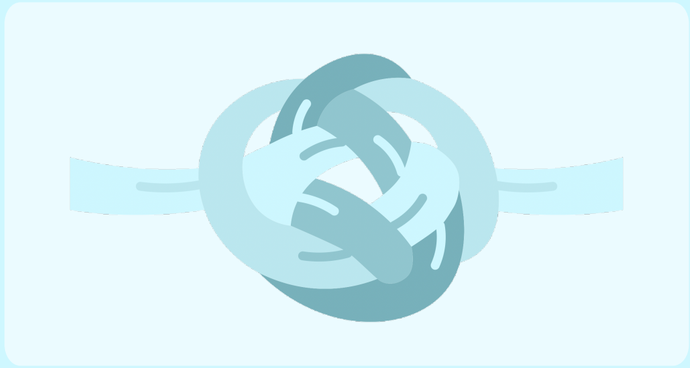

- Detector
- Classifier
